

Preface

This volume contains a selection of the papers presented at the 17th International Workshop on Functional and (Constraint) Logic Programming (WFLP 2008), held in Siena (Italy) on July 3–4, 2008.

WFLP 2008 aimed at bringing together researchers sharing a common interest in functional programming and (constraint) logic programming, as well as their integration. It promoted the exchange of ideas and experiences among researchers and students from the different communities interested in the foundations, applications, and combinations of high-level, declarative programming languages and related areas. Previous WFLP editions have been organized in Paris (2007), Madrid (2006), Tallinn (2005), Aachen (2004), Valencia (2003), Grado (2002), Kiel (2001), Benicassim (2000), Grenoble (1999), Bad Honnef (1998), Schwarzenberg (1997, 1995, 1994), Marburg (1996), Rattenberg (1993), and Karlsruhe (1992).

This edition was attended by 40 participants from 9 countries: Argentina, Austria, Canada, France, Germany, Italy, Spain, United Kingdom, USA.

The Program Committee of WFLP 2008 selected 11 papers from 17 submissions for the post-workshop proceedings. Each paper was reviewed by, at least, three members of the Program Committee, with the help of some additional referees. In addition to the selected papers, the scientific program included one invited lecture by Dale Miller from École Polytechnique (France). We would like to thank him for his invited talk and for his contribution to the post-workshop proceedings.

We would also like to thank all the members of the Program Committee and all the referees for their careful work in the review and selection process. Many thanks to all the authors who submitted a paper and to all the conference participants. Finally, we gratefully acknowledge all the institutions and corporations who have supported this event.
